

The BOSS Mobile App arrives on the iPhone/iPad

December 12, 2011

BOSS is pleased to announce the arrival of the BOSS Mobile App on the iPhone / iPad
With BOSS, managing your assets is now at your fingertips!

The BOSS Mobile App highlights

- **Barcode scan a given asset
and look up the location, associated users,
current status in seconds**
- **View all the details of a given asset**
- **Allows Technicians to input notes,
Update location, status**
- **Enables Location Tracking based on granular
details to map an Asset**
- **Shows the number of Incidents for a given
Asset so you can be on top of it**

Transforming the ROI in IT Service Management
